# Emergency medicine

In an unexpected medical emergency, you want positive and immediate action. That's when our ER always rises to the occasion.

The Department of Emergency Medicine has a critical role to play in ensuring a patient is stabilised in an emergency situation. Our team of physicians and nurses are well trained in disaster management while also having the full back-up of staff and specialists at Medeor 24x7 to assist them when necessary in performing their vital task.

The department is able to provide the full range of emergency care, for young and old. We are fully equipped to handle any emergency, and our state of the art ambulances with ventilator support are on standby around the clock.

No matter the situation, the department of Emergency Medicine is always ready, willing and highly capable.

## KEY AREAS OF EXPERTISE:

- Medical and surgical emergencies
- Resuscitation and stabilisation
- Life support
- Minor procedures
- Pediatric Ambulance
